

Story Of invention

Patent Application : 419400480

At the begging

I had tired skin, pigmentation and acne on my face, and I had trouble falling and short hair.

I visited many doctors and lost money without satisfactory results.

It something I have dealt with since I was a young teenager and has caused me to feel anxious helpless and insecure.

One day I was discussing with my mother about the problems of my skin and hair, and then she told me there was nothing like natural substances free from any chemicals

She told me about Ziziphus spina-christ and Lawsonia Inermis and some natural substances that changed my skin and my hair for the whole, making me confident of my appearance.

At first I have used Ziziphus spina-christ and Lawsonia Inermis and magic herbs and oils as face, hair mask then I think for something that useful and I can use everyday for wonderful appearance .

I made LOYALTY SOAP that help my skin, hair dreams came true

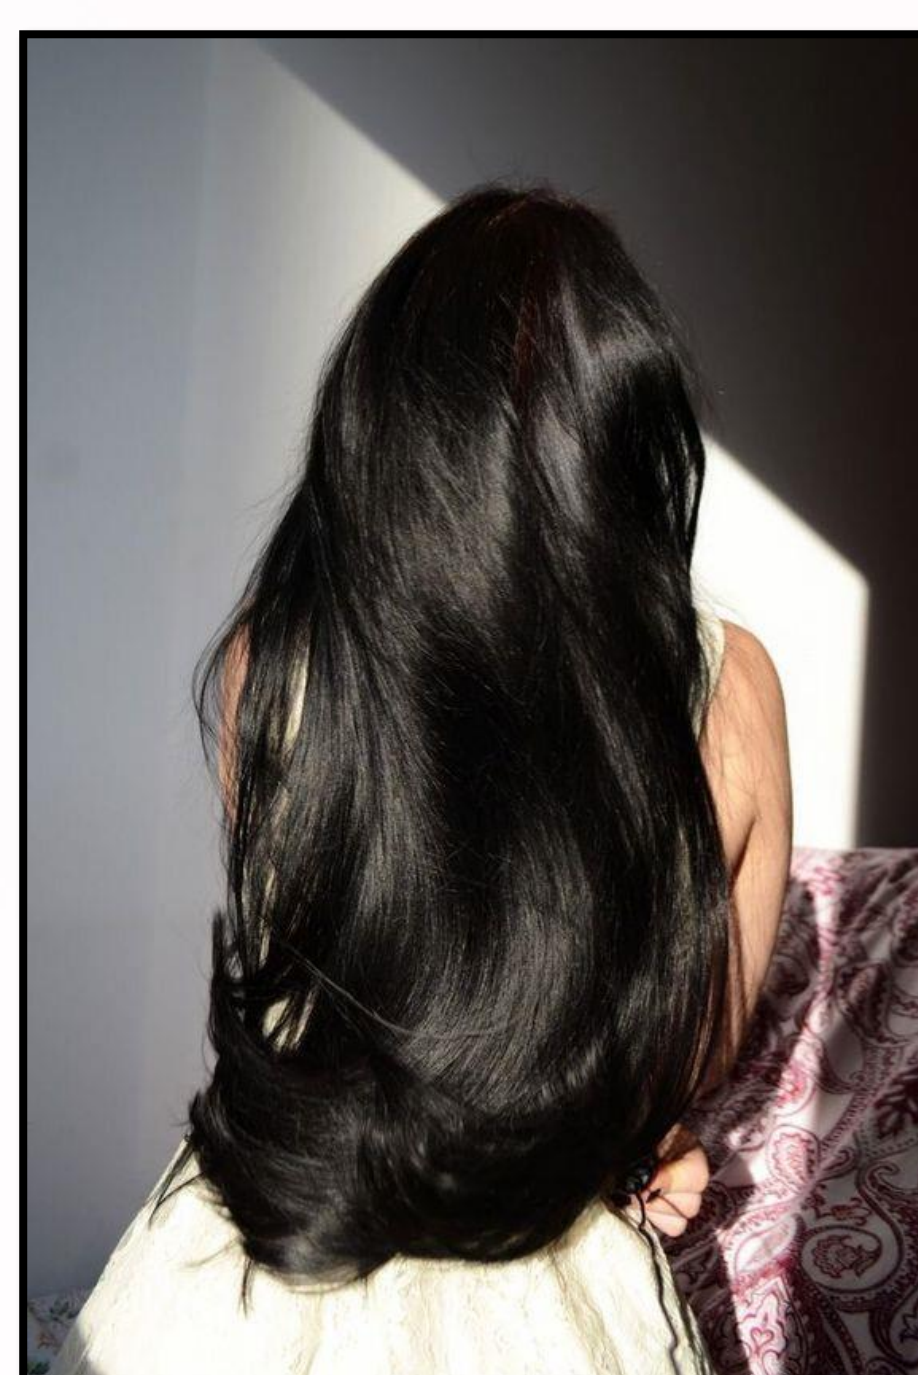

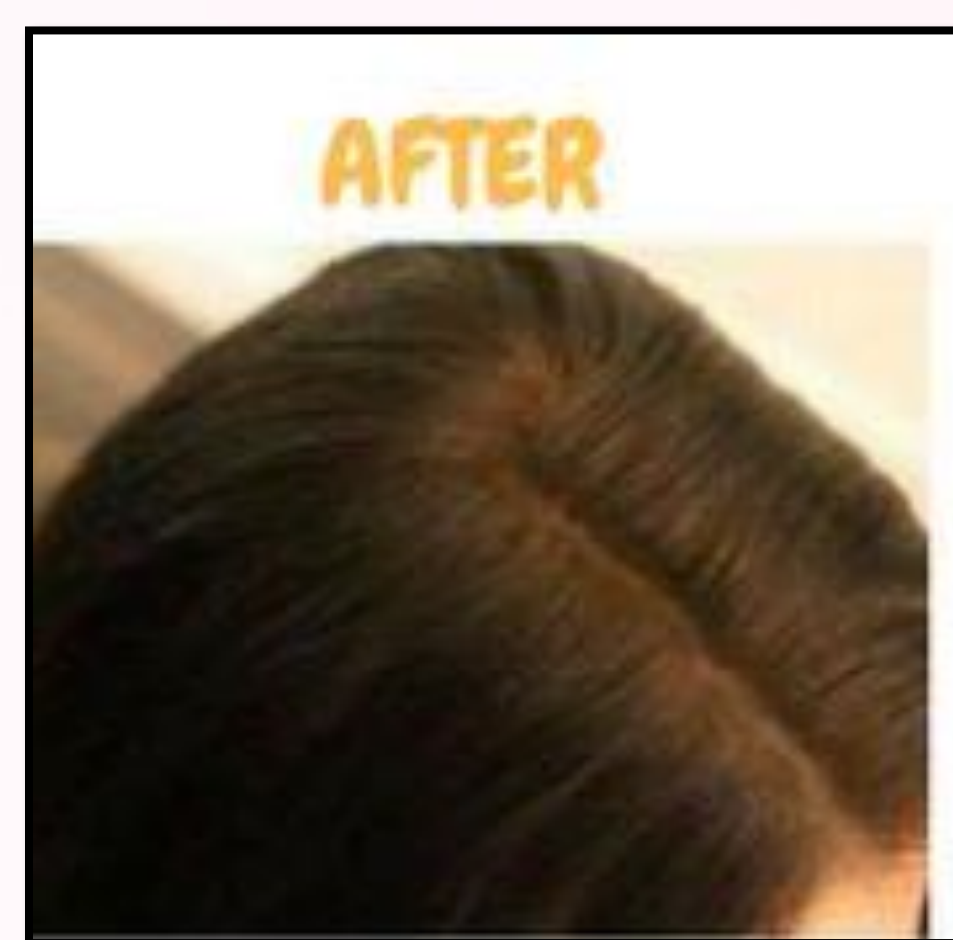

After Using The Loyalty Soap:

The aim of this product to mix everything together and get good result in one soap.
