

By Emotional Stories, Parasitology Course Becomes Simple and Easy

Kingdom of Saudi Arabia

Prof. Dr. Najia A. Alzanbagi

Professor of Parasitology, President and Owner of Highly Innovative Unique Foundation (HIUF), Jeddah Kingdom of Saudi Arabia

Hiufsa.zn@gmail.com

Parasitology course is one of the Science subjects that students find it very difficult due to:

- * Similarity of parasites among themselves
- * The various stages in their life cycles
- * The multiplicity of infection methods

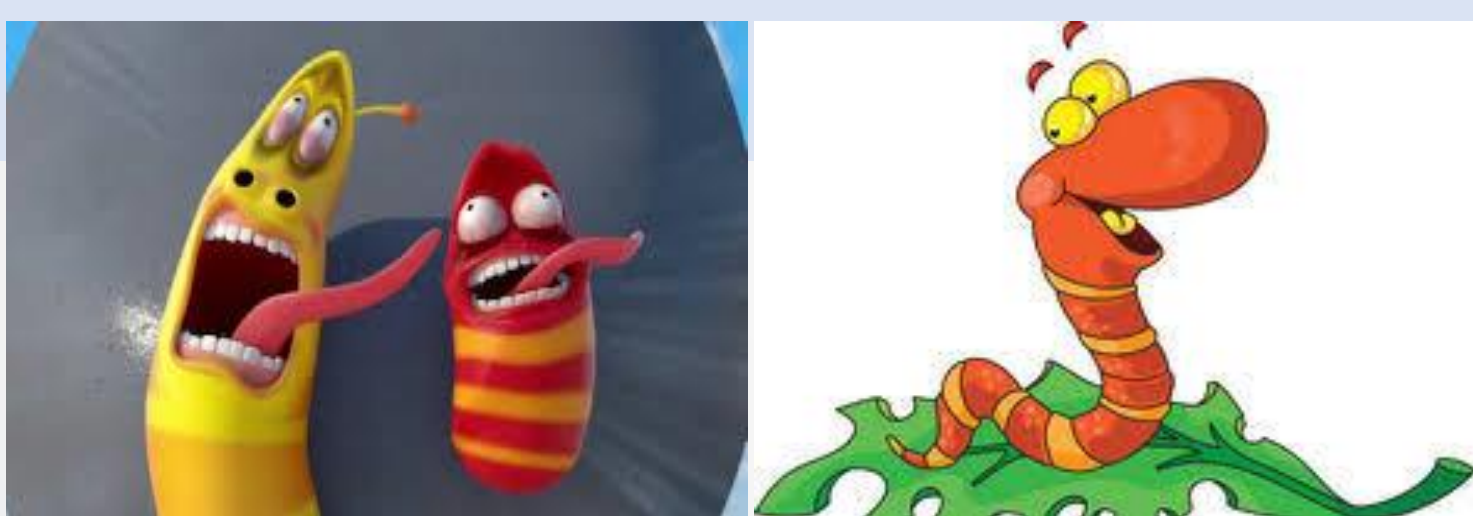

The students' annoyance with the subject difficulty due to:

- * Its minute and very important details
- * The bad feeling of the Parasitology subjects
- * The fear of studying Parasitology

Introducing a new method in teaching Parasitology, which depends on using
The Emotional Novels

I put the parasite in every story,
under the focus of attention
He wants to live, marry, have
children, feel, cry and he is a very
emotional being

God created him to be like that, and
he has nothing to do with it
I made him tell us his story by
himself

He sometimes cries and
sometimes laughs, he loves, he
hates, gets angry and screams
He is a very sensitive being,
and the circumstances made
him a parasitic being that
attacks others against his well

He is in order to live, he tries to overcome the bad environmental conditions, always apologizing to his host for what he does in him and for the diseases and complications that happen to him

Ascaris lumbricoides

Prof. Dr. Najia Al-Zanbagi

صوني جمالك .. عني

Toxoplasma gondii

كل يعمل .. على شاكلته

The Emotional Stories for the Various
Parasites with Somewhat Attractive Titles

I Hope this will Raise the Educational
Level of the Parasitology Students
